2020 Strategy

GABY GOLDSTEIN
CO-FOUNDER, POLITICAL DIRECTOR
Overview

• The Sister District Strategy
• A Look Back: 2017 - 2019
• This Year: 2020
• Q&A
OUR POLITICAL STRATEGY: THE BASICS

GOAL:

To build and maintain progressive power by electing Democratic majorities in state legislatures across the country.
OUR POLITICAL STRATEGY: THE BASICS

Why State Legislatures?

• Policy pipeline
• Leadership pipeline
• Vital key to fair districts
• High volunteer ROI
OUR POLITICAL STRATEGY: THE BASICS

Tactics

• Electoral
  ▸ Field and fundraising, and in-kind general consulting

• Non-electoral
  ▸ Voter education and registration; civic engagement
OUR POLITICAL STRATEGY: THE BASICS

3 Types of Chambers

• **Blue Flips**: Chambers where Democrats are down a handful of seats to flip, where we can flip in one cycle.
• **Blue Holds**: Chambers where Democrats have a fragile majority, which we have to defend and expand.
• **Blue Inroads**: “No Chamber Left Behind” - Chambers where Democrats likely do not have a one-cycle solution to flipping, but where we must make whatever inroads we can
OUR POLITICAL STRATEGY: THE BASICS

• Mix of Chambers + Seats Changes Each Year:
  • Schedule of races
  • Shifting composition of chambers
  • Urgency of redistricting
    • 2019-2020, prioritizing “Last Chance” races: the last elections before redistricting in 2021, in states where the state legislature draws the lines
  • Urgency of other key races + broader electoral opportunities
    • 2020, prioritizing state legislative races nested in competitive congressional and/or Senate races, in important presidential battlegrounds
Political Strategy: 2017

• Blue Flips:
  • Manka Dhingra flipped the WA Senate blue

• Blue Holds:
  • Stephanie Hansen held the DE Senate blue

• Blue Inroads:
  • 13 VA House of Delegates candidates made inroads
Political Strategy: 2018

• Blue Flips:
  • Flipped the CO Senate and ME Senate

• Blue Holds:
  • Held and expanded control of the WA Senate and DE Senate

• Blue Inroads:
  ◦ Staved off a Republican supermajority in the FL House
  ◦ Broke GOP supermajorities in MI Senate and PA Senate
  ◦ Made critical inroads in the MI House, PA House
  ◦ Closed important gaps in AZ House, PA House, and NH House
Political Strategy: 2019

● Blue Flips:
  • Flipped the VA Senate blue
  • Flipped the VA House of Delegates blue

● Blue Inroads:
  • Pam Iovino brought the PA Senate within flip range for 2020
  • MS House candidate Shanda Yates contributed to a more diverse General Assembly in Mississippi than in decades
  • Candidates in MS and LA laid important groundwork for future Democratic success
Political Strategy: 2020
2020 STRATEGY

Same Strategy:

• Blue flips
• Blue holds
• Blue inroads
2020 STRATEGY

Prioritize:

• Urgency of redistricting
  • “Last Chance” races: last elections before redistricting in 2021, in states where state legislature draws maps

• Urgency of other key races + broader electoral opportunities
  • State legislative races nested in competitive congressional and/or Senate, in presidential swings
Minnesota: Blue Flip

State Senate Opportunity:

- The Minnesota Senate is our pick for the best Democratic chamber-flip opportunity of 2020
- Democrats are down just 2 seats in this chamber, which has not been up since 2016
- Deliver a Democratic trifecta
- ‘Last chance’ races: whoever is elected in 2020 draws next maps
Minnesota Fast Facts

- Current Control: Divided. Governor - D; Senate - R; House - D
- Gubernatorial Election: Not in 2020
- Length of State Senate Term: 4 years
- Candidate Filing Deadline: June 2, 2020 (DFL endorsement conventions held earlier)
- State Legislative Primary Date: August 11, 2020
- Redistricting: Congressional and state legislative lines drawn by state legislature; Governor has veto power over maps
- Electoral College Votes: 10
Broader 2020 Opportunities

- Critical battleground presidential state. Trump narrowly lost (44.9% to Clinton’s 46.4%)
- Important Senate race (Democrats must protect Tina Smith’s seat); competitive Congressional races (including MN-07 and MN-02)
- Working to support MN State Senate candidates will drive turnout up and down the ticket in this historic election year
State Senate Opportunity:

- Democrats need 9 seats in the Texas House to gain majority. There are 150 seats in the chamber.
- Dems gained 12 seats in the House in 2018. Momentum is now on our side.
- 9 House seats held by a Republican, where Beto O’Rourke won in 2018.
- Republican trifecta: winning this chamber will give Democrats seat at the table for redistricting.
- ‘Last chance’ races: whoever is elected in 2020 will draw the next maps.
Texas Fast Facts

- Current Control: Republican Trifecta (since 2003)
- Gubernatorial Election: Not in 2020
- Length of State House term: 2 years
- Candidate Filing Deadline: December 9, 2019
- State Legislative Primary Date: March 3, 2020; Runoffs May 26, 2020
- Redistricting: Congressional and state legislative lines drawn by state legislature; Governor has veto power over maps
- Electoral College Votes: 38
Broader 2020 Opportunities

• Texas is ‘bluing’. Romney carried Texas by 16 points in 2012, Trump’s win was by 9 points. Demographic and partisan shifts have continued to swing in our favor

• 2018: Beto 3-pt Senate loss; Dems’ 12-seat pickup in house

• Competitive Senate race (R-Cornyn); competitive Congressional races (including TX-22, TX-24, TX-10, TX-21 and TX-31).

• Working to support TX State House candidates will drive turnout up and down the ticket in this historic election year
North Carolina: Blue Flip

State Legislative Opportunities

- Democrats need to win 5 Senate seats and 6 House seats
- Momentum is on our side: in 2018, Democrats broke GOP supermajorities in both chambers
- Flipping a chamber would give Democrats a critical seat at the redistricting table
- Some NC districts have recently been redrawn; new maps are not a slam-dunk for Dems
- Dem Governor Roy Cooper up for re-election 2020. Competitive race, drive resources and get-out-the-vote efforts for down-ballot candidates
- These are ‘last chance’ races: whoever is elected in 2020 will draw the next maps
North Carolina Fast Facts

- Current Control: Divided. Governor - D; Senate - R; House - R
- Gubernatorial Election: Up in 2020
- Length of State Senate and House Terms: 2 years
- Candidate Filing Deadline: December 20, 2019
- State Legislative Primary Date: March 3, 2020
- Redistricting: Congressional and state legislative lines drawn by state legislature; Governor does not have veto power
- Electoral College Votes: 15
Broader 2020 Opportunities

• Battleground presidential state. Obama carried NC in 2008 before Romney won in ’12 by 2 points, and Trump won it by just 3 points

• Very competitive Senate race (R-Tillis); competitive Congressional races (including NC-02, NC-06, and NC-09)

• Working to support NC state legislative candidates will drive turnout up and down the ticket in this historic election year
Pennsylvania: Blue Flip

State Legislative Opportunities

- Democrats need to win 4 Senate seats and 9 House seats
- Momentum on our side: in 2018, Dems broke GOP Senate supermajority, flipped 12 State House seats
- Flipping a chamber would give Democrats seat at the redistricting table
- Flipping a chamber especially important because PA Governor does not have veto power over state legislative maps. So while Democratic Governor Wolf will be in office during the next round of redistricting, still need Dem control of a chamber to have a say in the outcome
- ‘Last chance’ races: whoever is elected in 2020 will draw new maps
Pennsylvania Fast Facts

- Current Control: Divided. Governor - D; Senate - R; House - R
- Gubernatorial Election: Not up in 2020
- Length of State Senate Terms: 4 years
- Length of State House Terms: 2 years
- Candidate Filing Deadline: February 18, 2020
- State Legislative Primary Date: April 28, 2020
- Redistricting: State legislature controls Congressional redistricting, Political Commission controls state legislative redistricting; Governor has veto over Congressional maps but not state legislative maps
- Electoral College Votes: 20
Broader 2020 Opportunities

- Critical, perennial battleground presidential state. Before Trump won by 44,000 votes (less than 1%), Pennsylvanians voted for the Democratic Presidential nominee in every election since 1992.
- One of the “Big Four” states likely to control 2020 outcome.
- Very competitive Congressional races (including PA-10, PA-08, and PA-01, PA-07, PA-17, and PA-16).
- Working to support PA state legislative candidates will drive turnout up and down the ticket in this historic election year.
Michigan: Blue Flip

State House Opportunities

- Democrats need to win 4 seats
- Momentum on our side: in 2018, Dems broke GOP supermajority in Senate, gained 5 House seats, broke GOP trifecta by electing Dem Governor Gretchen Whitmer
- Flipping this chamber: give Governor Whitmer a partner in the legislature; GOP refuses to work with her to govern effectively
Michigan Fast Facts

• Current Control: Divided. Governor - D; Senate - R; House - R
• Gubernatorial Election: Not up in 2020
• Length of State House Terms: 2 years
• Candidate Filing Deadline: April 21, 2020
• State Legislative Primary Date: August 4, 2020
• Redistricting: Independent Redistricting Commission will draw the next set of maps; Governor cannot veto maps
• Electoral College Votes: 16
Broader 2020 Opportunities

- Critical, perennial battleground presidential state. Obama carried MI in both 2008 and 2012 before Trump eked out a win by a quarter of one percentage point (10,000 votes). Before Trump, Michiganders had voted for the Democratic presidential nominee since 1992.

- One of the “Big Four” states likely to control 2020 outcome.

- Very competitive Senate race (D-Peters); several competitive Congressional races (including MI-08, MI-11, and MI-03).

- Working to support MI state legislative candidates will drive turnout up and down the ticket in this historic election year.
Arizona: Blue Flip

State House Opportunities

- Democrats need to win 3 Senate seats and 2 House seats.
- Momentum is on our side: in 2018, Dems won federal Senate race and flipped 4 House seats, bringing the chamber to the closest partisan divide in decades.
- Flipping a chamber would break GOP trifecta, keep Republicans from passing regressive legislation, and provide an opening for Democrats to advance progressive legislative agenda.
Arizona Fast Facts

- Current Control: Republican Trifecta (since 2009)
- Gubernatorial Election: Not up in 2020
- Length of State Senate and House Terms: 2 years
- Candidate Filing Deadline: April 6, 2020
- State Legislative Primary Date: August 4, 2020
- Redistricting: Independent Redistricting Commission controls Congressional and state legislative redistricting
- Electoral College Votes: 11
Broader 2020 Opportunities

- Arizona is ‘blueing’. Romney carried Arizona by 9 points in 2012; Trump’s win was by just 3.5 points. Demographic and partisan shifts continued to swing in our favor.
- Very competitive Senate race (R-McSally); several competitive Congressional races (including AZ-06, AZ-01 and AZ-02).
- Working to support AZ state legislative candidates will drive turnout up and down the ticket in this historic election year.
Colorado: Blue Hold

State Senate Opportunities

• In 2018, our candidates Faith Winter and Tammy Story flipped the chamber and delivered a blue trifecta to Colorado
• GOP relentless to recall Dem State Senators and try to recapture power.
• So far, efforts unsuccessful. But their recall efforts give us a preview of the battle for the State Senate to come in 2020
• Watching chamber closely to ensure that Democrats do not lose control of the chamber and the trifecta in 2020
Colorado Fast Facts

- Current Control: Democratic Trifecta (since 2018)
- Gubernatorial Election: Not up in 2020

• Very competitive Senate race (R-Gardner)
• Working to support CO state legislative candidates drives turnout up and down the ticket in this historic election year.
Georgia: Blue Inroads

State Legislative Opportunities

• 2018: Despite rampant voter suppression and racial gerrymandering by Republicans, Dems flipped 11 seats in the House and 2 in the Senate
• Democrat Stacey Abrams within 1.5% of becoming first African-American woman to be elected as Governor
• ‘Last chance’ races: whoever is elected in 2020 will draw next maps
Georgia Fast Facts

- Current Control: Republican Trifecta (Since 2005)
- Gubernatorial Election: Not up in 2020

• Two competitive Senate races (R-Perdue, and R-Loeffler); competitive Congressional races (GA-06, GA-07)

• Working to support GA state legislative candidates will drive turnout up and down the ticket in this historic election year
Wisconsin: Blue Inroads

State Assembly (House) Opportunities

• In 2018, Dem candidates received 200,000 more votes than Republicans and won all statewide offices, but brink of superminority in the Assembly
• GOP has a supermajority in WI Senate; the House is super important: GOP just 3 seats away from gaining a supermajority in the House
• Fending off a Republican supermajority in the House will allow Democrats to retain a seat at the redistricting table. If we can keep the GOP from gaining a supermajority,
Wisconsin Fast Facts

Broader 2020 Opportunities

• One of the “Big Four” states likely to control 2020 outcome; WI may be the single state upon which the election will turn.

• Two competitive Congressional races (WI-03 and WI-07).

• Working to support WI state legislative candidates will drive turnout up and down the ticket in this historic election year.
Florida: Blue Inroads

State Legislative Opportunities
- 2018: Dem Andrew Gillum lost Gov’s race by <.5%; Dems flipped 7 State Senate seats.
- GOP state legislators drew the state’s Congressional and state legislative district lines in their favor in 2010. Following successful legal challenges, the Florida Senate district lines redrawn in 2015; House remains badly gerrymandered in favor of Republicans.
- Some great opportunities for Dems in both chambers, particularly after 2018’s citizen-initiated ballot initiative: >1m formerly incarcerated people can register to vote
- ‘Last chance’ races: whoever is elected in 2020 will draw the next maps

Why state legislatures?

- State leaders become national leaders
- State policy becomes national policy
- States control redistricting
- State races are a great bang for your buck
Why Sister District?

- We are well-organized: efficient and effective, strategic.
- No matter what you have to give, we have a place for you.
- Lots of hands-on support from staff – no experience necessary!
Personal connections with candidates, IRL and on Facetime
Burnout is real!

Volunteers need a “home” that’s manageable, nourishing, AND effective.
We are FUN!
But what about the White House???
There's one simple answer...
Voter turnout is voter turnout! Down and up the ballot.
Working on a state race doesn’t mean you’re NOT working on a presidential.
Whomever the nominee is, we can work to get Democrats elected that we know we’re passionate about and help drive turnout!

RESEARCH BASICS
RESEARCH BASICS

• Correlation vs Causation
  • Correlation - 2 things have some kind of relationship
    • Ice cream and crime
    • Pros: Can explore natural relationships without intervention
    • Cons: Can’t establish that something is *caused* by something else
  • Causation - Something is *caused* by some other thing
    • Established by experimentation
    • Pros: Can establish that something *caused* something else
    • Cons: Not everything can be studied experimentally

• Experimental research
  • Must manipulate something (the independent variable)
  • Compares group not manipulated (control) to group(s) was/were (treatment)
RESEARCH BASICS

• Experiments
  ○ Ideally uses random assignment - everyone has same chance of being in any group
  ○ Introduces experimental control(s)
  ○ Compares the effect of intervening and not intervening

• Sample - A smaller subset of people from the group we are studying

• Validity
  ○ Internal - How well your study examined whatever you were trying to examine
  ○ External - How much your findings generalize to contexts outside of your experiment

• Research settings
  ○ Laboratory
  ○ Field
  ○ Natural

• Evidence vs proof
  ○ Nothing is ever proven
  ○ Studies provide evidence
COMMON TERMS

- **Universe**: Group of voters who have been identified as having some shared characteristic
- **Treatment**: Whatever intervention we did
- **Controls**: People in experiment who did not receive the treatment
- **Target**: Person included in experiment (either treatment or control)
- **Voter file**: National databases maintained by private companies that contain public voter records as well as purchased consumer records
- **GOTV**: Get Out the Vote; the period of time shortly before the election that focuses on mobilizing voters to go vote
RESEARCH Recap
**FIELD OVERVIEW**

- Voter outreach tactics are more effective in “quieter” election contexts
  - Most effective in odd-years and special elections, more outreach needed in even years
- Tactics generally especially impactful closer to the election
- Turnout effects across tactics are in the range of 0.2-3.0%
- On average, academic studies find larger effects
  - This may be due to academics running studies in quieter elections, using more random samples, and/or a bias towards reporting positive results
- Volunteer field efforts often outperform paid field efforts (but not always; quality is key)
Definition (most common): Visiting voters at their homes to talk to them about voting.

- Research:
  - Canvassing increased voter turnout in 44 out of 51 studies
  - Increases in turnout among canvassed voters in one study averaged 2.1%
  - Could increase voter registration rates by as much as 4.4%
  - Most effective volunteer tactic of the major 4 (canvassing, phonebanking, textbanking, handwritten postcarding/letter-writing)
  - Canvassing effects vary widely due to differences in election types, election competitiveness, canvass timing, canvass training and quality, contact rate, etc
**CANVASSING TAKEAWAYS**

*Bottom Line:* Canvassing is the most effective form of voter contact because of the opportunity for face-to-face communication

- Canvassing reliably increases turnout
- Canvass quality affects the outcome
- Canvassing can be a good voter registration tool
- Canvassing is the most effective volunteer tactic you can engage in
PHONEBANKING

Definition: Calling to talk to voters on the phone

• Research:
  ◦ See small to modest boost in turnout
    ▪ More effective than postcards and text messages by about 2x
    ▪ Most effective remote volunteer activity
  ◦ Phone calls that are unhurried, personal, and allow room for a genuine dialogue with the voter (3-5% boost in turnout) are more effective than hurrying volunteers (0.5% boost in turnout)
    ▪ Robo calls are generally ineffective, demonstrating the need for personal connection
  ◦ Warm contacts are better than cold
**PHONEBANKING TAKEAWAYS**

*Bottom line:* If canvassing is not an option, phonebanking is the next best thing

- Phonebanking is the best choice for remote volunteering
- Phonebanking helps to boost voter turnout
- Phonebank quality matters
- Recontacting committed voters close to election day to GOTV is more effective than cold-calling during that time
TEXTBANKING

Definition: Sending text messages to voters using a third party app like Hustle and ThruText

- Research:
  - Industry and academic estimates vary a lot (0.2-3.0%)
  - Voter registration targets that received text messages with a link to a registration form registered at a 0.3% higher rate
  - Text messages that provided voters’ polling places were more effective (increase in turnout of 0.2% compared to controls) than plan-making texts that required a response (decrease of 0.1% compared to controls) in one study
  - Back and forth text messages tend to perform worse than single messages and are much more likely to produce opt-outs
TEXTBANKING TAKEAWAYS

**Bottom line:** The effectiveness of textbanking needs more research. There’s evidence that text messaging has small effects on voter turnout and voter registration

- Text messages have a small effect on voter turnout
- Text messages have a small effect on voter registration
- Keep it informational
- “Warm” contacts are better than “cold”
- Requiring replies increases opt-out rate and decreases efficacy
Definition: Sending handwritten or partially handwritten postcards and letters to voters in the mail

- Research:
  - Generally find a small, positive boost from GOTV postcarding (~0.1-1.4%)
  - Vote Forward's partially handwritten letters have shown small positive boosts to special election turnout
  - SDAN ran two studies sending chaser postcards to people who had received voter registration forms in the mail (increase of 0.26% in second study)
  - SDAN found null results in our 2018 GOTV postcard experiment
    - But both samples were skewed, potentially attenuating results
    - Other studies have found significant effects
Bottom line: The effectiveness of postcarding needs more research. There’s evidence that postcarding has small effects on voter turnout and voter registration

- Postcarding generally has a small effect on voter turnout
- Letter writing has also had promising results with small effects on voter turnout; need to do a head-to-head comparison
- Postcarding appears to be effective “chasing” another contact
- Good targeting matters
- Content matters in direct mail, may apply to postcards

A Better Blast
What IS an Email Blast?

- Sent to a large portion of your list
- General interest
- NOT individual outreach
What’s the Purpose?

• Make announcements to your entire team
• Keep the least engaged people on your list informed
• Begin to activate those people 👍
What Not to Do

• Do NOT use general email blasts to confirm RSVPs, follow-up on individual donation pledges, etc.
If you’re looking for a specific action from a specific person, it requires specific outreach.
The Good News

Email blasts can work well for aggregate actions...

... Like digital fundraising!

One Email, One Action

• Newsletters are good for information, but should still have one main action.
Format Best Practices

- Use pictures with faces (selfies are great!)
- Personalize the greeting (merge tags)
- Most important info in the first 3 lines
- Keep it SHORT
- Make your action item the only style that stands out
- Make your ask specific
- Sign it from a real person
- The bottom button always does best
Dear Friend,

Rita here. I’m asking for your help because we need to get out the vote in Mississippi. Our candidates Aisha Sanders, Brandon Rue, and Shanda Yates are running incredibly tight races. In fact, Democrats are such a threat this year that Donald Trump and Mike Pence are personally going down to campaign for Republicans in deep red Mississippi this weekend.

To get our incredible candidates over the finish line, I want to send our most experienced field staff – Head of Campaigns Brandon Turner – to help them on the ground.

But, we need to raise $1k specifically for Mississippi by Sunday to fund Brandon’s trip.

This is our final fundraising request directly benefiting our 2019 candidates – we won’t ask again. I hope we can count on you to chipping in $25 in right now.

He’ll be working directly with all three campaigns from Sunday through Election Day – knocking on doors, making phone calls, and managing volunteers.

This email is going to a few hundred people, and if 40 folks step up, we’ll hit our $1k target.

Please donate $25 right now to help get Brandon to Mississippi.

Thank you so much for your help in the final stretch,
Rita
