Carolina Federation is a statewide organization that brings local people together across race and the rural-urban divide to build political and electoral power in their own communities. They engage in organizing that strengthens diverse communities, develops leaders, and achieves electoral victories. They are building an independent political movement that forges a new political and economic agenda for North Carolina, rooted in a culture of dignity and belonging. Through their organizing, they are working to build permanent, progressive majorities at the local and state level.

Carolina Federation’s approach to building power is defined by their relentless commitment to bringing new people into political action, their deep investment in local leadership, and their intentional integration of cultural work with community and electoral organizing.

## STATE LEGISLATIVE WORK

Carolina Federation supports candidates at the state legislative level each year. Their principal goal is to build a long-term base of progressive voters across North Carolina and build progressive governing majorities at the state and local level.

Carolina Federation endorses a small cohort of targeted legislative candidates in the general election and supports those candidates through phonebanking and canvassing, fundraising, and strategic planning.

## ACCOMPLISHMENTS

Carolina Federation was founded in 2019 and has quickly become a powerhouse of progressive organizing in North Carolina. In 2020, Carolina Federation had the largest volunteer-run field operation in North Carolina. They made hundreds of thousands of phone calls and had over 86,000 conversations with voters.
